### **DETAILED ACTION**

Receipt of applicant's amendment after final is acknowledged. Claims 38, 56 and 57 are pending. The withdrawn dependent claims 3-6, 9, 10, 12-31, 33-36, 39-41, 43-48, 50, 51, 54 and 55 have been cancelled since their independent claims have been cancelled.

#### ***Allowable Subject Matter***

Claims 38, 56 and 57 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art either taken singularly or in combination fails to disclose a heat exchanger comprising a core having a variable length and comprising a stack of plates; a support structure, wherein the core is received by the support structure, wherein the support structure comprises a fixed member and an attached fluid-biased bellows, the fixed member comprises a first end and a second end, wherein the first end is in contact with the core, the bellow is mounted between the core and the second end of the fixed member so that the bellows is deformed as the length of the core varies and wherein the bellows is wider than the core (as recited in claim 38) and the core is pressurized with a gas and wherein the bellows is in fluid communication with the core so that the bellows has substantially the same gas pressure as the core.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
